## 📁 Professional Experience

### Amazon

Software Engineer, Prime Video

Nov 2022 – present  
London, United Kingdom

- Extended **React** and **TypeScript** component logic in the Prime Video Living Room application to support right-to-left layout and text. **Successful delivery** of the multi-team, time-constrained project facilitated a Prime Video launch in **8** new countries, **increasing Prime subscription rates** in launch regions by **11.52%**.
- **Migrated** application from a legacy, chaotic **metrics** reporting tool to a structured, predictable platform.
- Confidently **communicated** and **resolved** customer-impacting high severity **on-call incidents**, using **AWS CloudWatch** and internal tools to isolate and roll back problematic deployments in a **TypeScript** codebase.
- **Onboarded 2** new engineers during eighth week of tenure, in absence of experienced team members.

### THG

Software Engineer

Sep 2021 – Oct 2022 | United Kingdom

- **Refactored** an external customer-facing content management system into **30+ robust** and **reusable Angular components**. Facilitated onboarding of the component library for multiple internal teams.
- **Collaborated** with UX designers to develop complex **Angular user interfaces**, used by **100** external clients.
- Developed and maintained a backend **GraphQL API** utilising technologies like **Java**, **Gradle** and **Spring**.
- Spearheaded **engineering excellence** by creating and taking **ownership** of entire team's **documentation**.
- **Exceeded** company **expectations** throughout all company quarterly performance reviews.

## 🔧 Notable Technical Projects

### SkyStory

- Dynamically themed, responsive progressive web application (**PWA**) where users query live and forecast weather information, utilising a third-party **REST API** service. Built with **Angular**, **Material** and **Tailwind**.
- Integrated **Firebase authentication** and **Firestore database** saves queries for authenticated users.

### NanoNote

- Lightweight and responsive **Angular** application for sticky notes, secured with **Firebase authentication**.
- Users can create, manage, update, sort and categorise unlimited notes in an intuitive, minimalistic UI.

### TurboFile

- Responsive and multi-themed **React** application where users can upload and share files within seconds.
- Additional features to view, download and manage files are unlocked for users authenticated with Google.

## 🎓 Education

Imperial College London

2017 – 2021 | London, United Kingdom

Aeronautical Engineering (MEng, Master of Engineering)

- **Upper Second Class Degree, 69.6%.**
- **Master's Thesis**  : Explored a Python implementation and solution to the sparse conic optimisation problem, using the Alternating Direction Method of Multipliers.
- **Notable Modules:** **High Performance Computing**, Mathematics, Numerical Analysis, Optimisation, Finance.

## { } Technical Skills

HTML, CSS, JavaScript, TypeScript, Python, SQL, Java, React (v18), Next.js (v13), Angular, Firebase (v9), Git, Tailwind, npm, Yarn, Jest, Cypress, REST, webpack, Testing (Unit, Integrated, E2E), Axios, RxJS, Bash, Scrum, Flask, Continuous Integration, Continuous Deployment, Docker, Kubernetes, GraphQL, Vercel

## 🌐 Languages

English (Native) | Chinese (Advanced) | Spanish (Beginner) | Cantonese (Beginner)

## 🎲 Interests

**Chess**  (Youngest Malaysia National Chess Champion (2013); FIDE Master (International Title); World Chess Olympiad Participant (Norway 2014); President of Imperial College London Chess Club, led team to win 1st place in every competition, most club members in recent history (2018-2019); Private Teacher)

**Quantitative Finance** | **Machine Learning**  | **Sports** (Swimming, Table Tennis, Badminton) | **Music**
